

BETTA STYLE KITCHENS & JOINERY PTY LTD

A DREAM KITCHEN

THE PERFECT BLEND OF MODERN AND RUSTIC

Betta Style Kitchens & Joinery Pty Ltd delivered this outstanding and stylish farmhouse kitchen showcasing incredible workmanship, functionality and clever design. Taking a modern approach to the country look and designing a kitchen to be inviting and charming, a place where family and friends could enjoy their meals together and celebrate gatherings. Truly the heart of the home.

Inspired by rural living, the clients requested the kitchen to incorporate a country vibe with a touch of glamour. The brief was achieved with the implementation of shaker doors, vintage handles, capping mould, a butler's sink and glass cabinetry. The diamond tiled splashback and pot filler further elevated the country look, while the soft colour palette brings warmth to the kitchen area and blends perfectly with the rest of the home.

With many guests coming to stay at the property, the clients desired an area where food preparation could be done out of sight. A spacious walk-in pantry was added for this purpose, perfectly hiding mess with the custom-made sliding barn door. The stunning island bench offers abundant space to use as a buffet serving area, creating the ideal area for entertaining guests.
