About Us.

Betta Style Kitchens & Joinery (trading as The Pre-Fab Group | Betta Style Laminating) was established in 1993 to support the changing needs of the cabinet making and shop-fitting industry. A one-stop destination for the trade industry offering a comprehensive range of tailored cabinets, doors, joinery components, custom paint finishes, precision machining and bench top manufacturing.

Betta Style Kitchens & Joinery has built an industry-leading reputation following the 2016 amalgamation of Betta Style Laminating and The Pre-Fab Group, however its recent success is a story decades in the making, beginning with what proved to be a life-changing opportunity in the early '90s.

In 1993, the sale of a small bench top manufacturing company, Betta Style Laminating had caught the attention of the man soon to become its owner. Having recently completed his apprenticeship as a shopfitter and detailed joiner, Nino Strangio was excited by the prospect of effectively building a business from scratch – and with opportunities of the sought after, Nino backed himself to do just that.

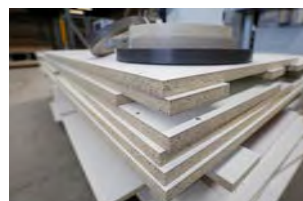

The rest as they say, is history. Over the years, Betta Style Laminating has evolved and undergone many changes, going from strength to strength and establishing a reputation as a manufacturer of high-quality laminated products, catering to both the retail and trade sectors and supplying a number of major industry providers. The Pre-Fab Group was subsequently established in 2002, drawing on Nino's shop-fitting and detailed joinery background, catering to the market for cut-to-size demands, supplying flat-packed kitchens and joinery to the cabinet making and shop-fitting industry.

The Pre-Fab Group also evolved over the years, with Nino overseeing its transformation into a supplier of fully assembled kitchens and joinery for the trade, building and retail sectors. The amalgamation of Betta Style Laminating and The Pre-Fab Group combines the two businesses' respective strengths, with Betta Style Kitchens & Joinery providing a comprehensive range of products and services.

Our ongoing investment in the latest machinery and software technology is a key component of our success, as is our commitment to producing only the highest-quality products, supported by a strong work ethic and a client-focused approach. It is noteworthy that we have clients who have been with us from the beginning, and we are grateful and honoured to have their continued support.

Betta Style Kitchens & Joinery is well positioned for further growth, and we are excited by the prospect of taking on future challenges. In recent times, we have been recognised by the industry and have picked up several awards for our work, and we look forward to a future of continuing to bring client ideas to life, producing beautiful kitchens and joinery that effectively blend functionality and style.

Our Custom Kits.

CustomKits is the quick and easy solution for a complete kitchen, bathroom or laundry fit out. The entire range is modular, allowing you to mix and match to suit the room's dimensions.

Choose from a wide range of base, wall or tall cabinets, drawer options and an extensive selection of bench tops. Simply nominate your sizes on our order form(s), then select from an extensive range of woodgrains, solid colours and painted polyurethane finishes for your total CustomKits fit out solution.

Our CustomKits are designed to simplify any residential or commercial fit out. Components are manufactured to specification, using the latest technology in CNC equipment and supplied to you ready for assembly.

Our melamine doors and panels have an extensive selection of finishes such as matt, texture, silk and embossed woodgrain finishes.

Our 2-pac polyurethane doors and panels have an almost unlimited palette of colours and finishes from 10% matt, 30% satin or 100% gloss. These are also available with a plain or routed face profile to suit contemporary, traditional, shaker or provincial styles.

Contact us to see how we can help you with your next joinery project.

LAMIWOOD

Laminex Lamiwood Flint and Natural Finishes

SHEEN SILK

Laminex Silk Finish
Polytec Sheen Finish

2-PAC POLYURETHANE

10% Matt Finish
30% Satin Finish
100% Gloss Finish

Our Suppliers

The Pre-Fab Group only use high grade materials to ensure our finished products are of excellent quality, standard and durability.

We work closely with our suppliers to provide our customers with the latest industry innovations, latest colour trends, designs, textures and finishes.

Base Cabinets.

Our CustomKits base cabinets are manufactured to Australian Standards using high grade quality materials and the latest industry technology. We offer an endless selection of colours, textures and finishes as well as the flexibility to order them as carcass only (no doors) or carcass with doors and panels (melamine or 2-pac polyurethane range).

Our **melamine range** of doors and panels have an extensive selection of finishes such as matt, texture, natural, flint, sheen, silk and embossed woodgrain finishes and are edged in 1mm ABS to match.

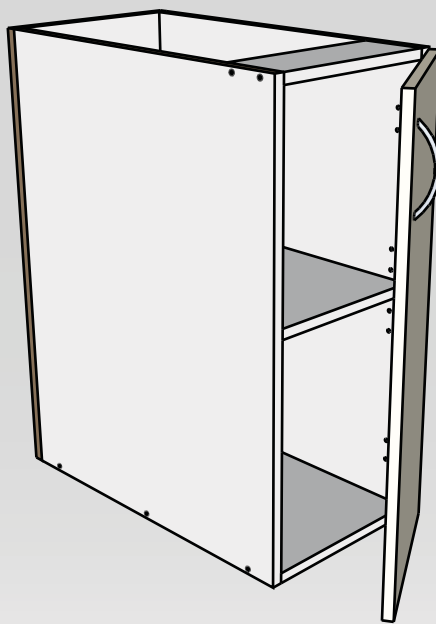

Our **2-pac polyurethane range** of doors and panels are available to suit contemporary, traditional, shaker or provincial styles and have an almost unlimited palette of colours and finishes from 10% matt, 30% satin or 100% gloss. Available with a plain or routed face profile and various edge details.

All our carcasses are manufactured using 16mm MR particleboard and edged in 1mm ABS. Shelf holes are drilled as 5mm. Pilot holes (cupboard ends or backs) are drilled as 3mm.

All cabinets have dimensions detailed on the labelling. This allows quick and easy identification of components when assembling and installing.

Drawer Cabinets.

Our CustomKits drawer cabinets are manufactured to Australian Standards using high grade quality materials and the latest industry technology. We offer an endless selection of colours, textures and finishes as well as the flexibility to order them as carcass only (no drawer fronts) or carcass with drawer fronts and panels (melamine or 2-pac polyurethane range).

Our **melamine range** of drawer fronts and panels have an extensive selection of finishes such as matt, texture, natural, flint, sheen, silk and embossed woodgrain finishes and are edged in 1mm ABS to match.

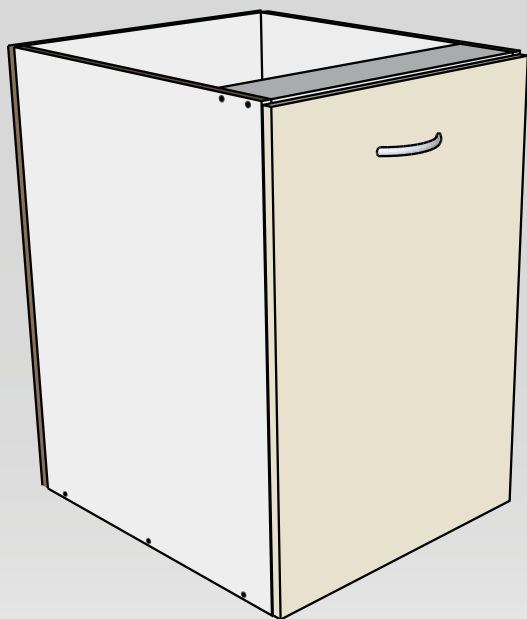

Our **2-pac polyurethane range** of drawer fronts and panels are available to suit contemporary, traditional, shaker or provincial styles and have an almost unlimited palette of colours and finishes from 10% matt, 30% satin or 100% gloss. Available with a plain or routed face profile and various edge details.

All our carcasses are manufactured using 16mm MR particleboard and edged in 1mm ABS. Shelf holes are drilled as 5mm. Pilot holes (cupboard ends or backs) are drilled as 3mm.

All cabinets have dimensions detailed on the labelling. This allows quick and easy identification of components when assembling and installing.

Wall Cabinets.

Our CustomKits wall cabinets are manufactured to Australian Standards using high grade quality materials and the latest industry technology. We offer an endless selection of colours, textures and finishes as well as the flexibility to order them as carcass only (no doors) or carcass with doors and panels (melamine or 2-pac polyurethane range).

Our **melamine range** of doors and panels have an extensive selection of finishes such as matt, texture, natural, flint, sheen, silk and embossed woodgrain finishes and are edged in 1mm ABS to match.

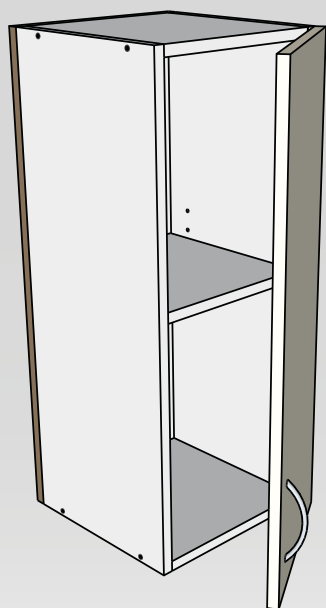

Our **2-pac polyurethane range** of doors and panels are available to suit contemporary, traditional, shaker or provincial styles and have an almost unlimited palette of colours and finishes from 10% matt, 30% satin or 100% gloss. Available with a plain or routed face profile and various edge details.

All our carcasses are manufactured using 16mm MR particleboard and edged in 1mm ABS. Shelf holes are drilled as 5mm. Pilot holes (cupboard ends or backs) are drilled as 3mm.

All cabinets have dimensions detailed on the labelling. This allows quick and easy identification of components when assembling and installing.

Tall Cabinets.

Our CustomKits tall cabinets are manufactured to Australian Standards using high grade quality materials and the latest industry technology. We offer an endless selection of colours, textures and finishes as well as the flexibility to order them as carcass only (no doors) or carcass with doors and panels (melamine or 2-pac polyurethane range).

Our **melamine range** of doors and panels have an extensive selection of finishes such as matt, texture, natural, flint, sheen, silk and embossed woodgrain finishes and are edged in 1mm ABS to match.

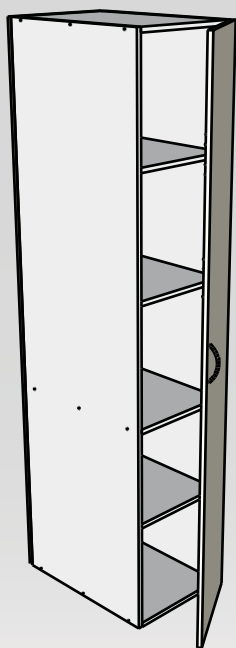

Our **2-pac polyurethane range** of doors and panels are available to suit contemporary, traditional, shaker or provincial styles and have an almost unlimited palette of colours and finishes from 10% matt, 30% satin or 100% gloss. Available with a plain or routed face profile and various edge details.

All our carcasses are manufactured using 16mm MR particleboard and edged in 1mm ABS. Shelf holes are drilled as 5mm. Pilot holes (cupboard ends or backs) are drilled as 3mm.

All cabinets have dimensions detailed on the labelling. This allows quick and easy identification of components when assembling and installing.

Panels.

Our CustomKits panels are manufactured to Australian Standards using high grade quality materials and the latest industry technology.

We offer an endless selection of colours, textures and finishes to choose from. Select from the melamine or 2-pac polyurethane range.

Our **melamine range** of panels have an extensive selection of finishes such as matt, texture, natural, flint, sheen, silk and embossed woodgrain finishes and are edged in 1mm ABS to match.

Our **2-pac polyurethane range** of panels are available to suit contemporary, traditional, shaker or provincial styles and have an almost unlimited palette of colours and finishes from 10% matt, 30% satin or 100% gloss. Available with a plain or routed face profile and various edge details.

Example:

16mm Polar White Lamiwood 720mm x 580mm

Step 1 -

$$\begin{array}{rcl} 720\text{mm} \times 580\text{mm} & & \\ 0.72 \times 0.58 & = & 0.4176\text{m}^2 \end{array}$$

Step 2 -

$$\begin{array}{rcl} 0.476 \times \text{POA} & = & \text{POA} \\ \text{m}^2 \times \$/\text{m}^2 & & \text{Panel Price} \end{array}$$

Routed Doors.

CustomKits range of routed door profiles feature over 50 cabinetry door designs to suit any style of kitchen, laundry, bathroom or office fitout.

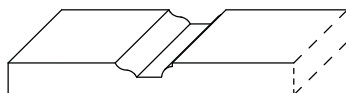

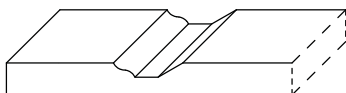

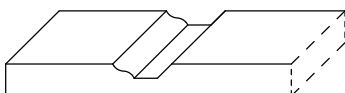

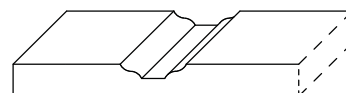

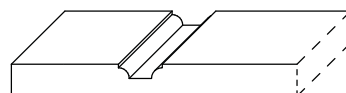

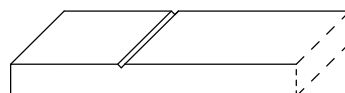

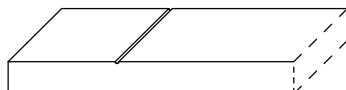

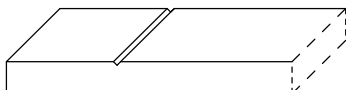

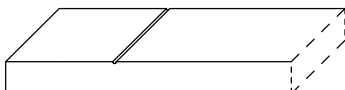

Choose from a selection of door styles that feature clean lines, bevelled edges, ribbed profiles or a colonial influence to suit contemporary, traditional, shaker or provincial styles.

Our routed doors and panels are manufactured using high quality, Australian Made double sided MR MDF Satin.

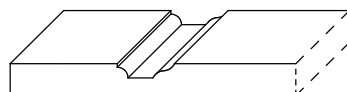

Our **2-pac polyurethane** doors and panels have an almost unlimited palette of colours and finishes from 10% matt, 30% satin or 100% gloss. Available with a plain or routed face profile and various edge details.

Bench Tops.

We are the laminated bench top specialists and we are committed to delivering exceptional quality and workmanship. That's why we offer an extensive selection of bench top profiles, colours, and finishes — designed to suit every space, whether it's a kitchen, pantry, laundry, vanity or office.

Our laminated bench tops are manufactured using high quality, Australian Made 33mm or 38mm single sided MR Particleboard and are available in a range of gloss designs for a contemporary finish, textured effects for high durability or matt finish for a sophisticated style. Complete the look with our selection of edge profiles; square edge for a modern look, or bullnose for the traditionalists; an 8mm radius for a seamless finish or a tight form profile for an elegant touch. Laminate bench tops are hard wearing, low maintenance and an easy to clean surface.

We understand that every project is unique, that's why our custom designed bench tops are crafted to meet the highest standards of durability, style, and precision — ensuring a tailored fit for your specific needs. CustomKits' extensive range of laminate bench tops offer an endless range of colours, patterns, textures and edge profiles to suit any design style. Select from bench tops with a cool stone finish, warm woodgrains, vibrant solid colours or a neutral palette.
